

Hardy-Weinberg example

HARDY-WEINBERG FORMULA

$$p^2 + 2pq + q^2 = 1.0$$

$$p =$$

$$q =$$

$$p^2 =$$

$$2pq =$$

$$q^2 =$$

6 students total

BLUE eyes:

BROWN eyes:

If you know the % of people that have the HOMOZYGOUS RECESSIVE condition (**BLUE** eyes), you can calculate the rest of the values.

$$q^2 =$$

$$q =$$

$$p =$$

$$p^2 =$$

$$2pq =$$
